Work Experience

Willys Västthaga

Örebro, Sweden

SHOP ASSISTANT, ON-CALL POSITION, CASHIER & E-COMMERCE

May. 2023 - May. 2025

- Work with stocking, cash register and e-commerce with on-call responsibility. Part-time while studying, full-time during the summers.

Ungdomskraft AB

Stockholm, Sweden

TEAM LEADER, COORDINATOR, DRIVER & STAFFING

Oct. 2020 - Jan. 2022

- Successes: Reduced understaffing, increased customer trust (partners to Ungdomskraft), streamlined workflows.
- Duties: Responsible leader for a group of five people, coordinating assignments and managing staffing for outsourced work (Volvo On Demand).

Volvo On Demand

Stockholm, Sweden

TEAM LEADER (PARTNER ASSIGNMENT THROUGH UNGDOMSKRAFT)

Oct. 2020 - Jan. 2022

- Successes: Increased rental of unused cars with an average of 8 cars/weekend, increased flow of cars for reconditioning between customers, increased customer satisfaction through changed car depots adapted to customer needs.
- Areas of responsibility: Field work, Shuttle traffic, In- and defleeting cars.
- Job responsibilities: Team leader and staffing manager for a group of five people who manage the car fleet for a corporate customer. Additional tasks include maintenance of the car fleet as a whole, service, transport (shuttle traffic), damage reporting, equipping new cars, repairing minor damage, driving to the car wash and coordinating assignments.

Toyota Sweden & Kinto Mobility

Stockholm, Sweden

PARTNER ASSIGNMENT THROUGH UNGDOMSKRAFT

Oct. 2020 - Jan. 2022

- Sporadic staffing during peak seasons, similar tasks as Volvo On Demand.

Coop Torsvik

Stockholm, Sweden

SHOP ASSISTANT, ON-CALL POSITION & CASHIER

Jan. 2018 - Dec. 2020

- Work with stocking and cash register with on-call responsibility. Part-time while studying, full-time during the summers.

Personal Projects

Unifeed – Newsfeed

Apple App Store

DEVELOPER & FOUNDER

2025

- Developed a universal news feed with news channels, interactive crime scene map based on police events and activities for iOS/macOS.
- Implemented geolocation to place RSS data on the map in real time.
- The app is built in Swift for the backend (SwiftUI frontend) and supports protocols such as RSS, API, JSON, and XML for managing and retrieving data.
- Reached the Apple App Store top list in several categories and countries and received awards.
- (Additional projects and iOS apps are available on my open source GitHub)
